

Berlin industrial solar container

<div class="df_qntext">How many PV modules are in a solar container?

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with rapid availability. at full power.

<div class="df_qntext">What is a solar container?

The Solar container is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

<div class="df_qntext">What is a solar fold container?

The solar fold Container is an immaculately-detailed and sophisticated plug & play system for a wide range of applications. The mobile drive system consists of a flexible drive unit mounted on traverses and can also be used for other solar fold PV power plants.

<div class="df_qntext">Who is Berlin Packaging?

Berlin Packaging is a hybrid packaging supplier that offers a comprehensive array of products and solutions. We supply plastic, glass, and metal containers, closures, and dispensing systems to customers across various industries. We bring together the best elements of packaging manufacturing, distribution, and income-boosting services to streamline supply chains and grow profits.

<div class="df_qntext">Who is solarcont GmbH?

SolarCont GmbH was created through a cooperation between the two successful companies Hilber Solar GmbH from beautiful Tyrol and the company Gföllner Fahrzeugbau und Containertechnik GmbH, which is deeply rooted in Upper Austria. This cooperation makes it possible to develop a completely new type of mobile solar system.

<div class="df_qntext">What is a mobile photovoltaic system?

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container technology.

Discover how SolaraBox's on-grid solar containers provide sustainable and cost-effective power solutions for factories, reducing energy costs and enhancing operational efficiency.

Our plug & play product is a unique and highly flexible pre-packaged solar container facility. It effectively includes the entire set of required components in standard shipping containers - 6ft, 10ft, 20ft or 40ft, ...

Berlin industrial solar container

SolaraBox Mobile Solar Containers: deliver 400-670 kWh/day with foldable solar arrays. Rapid-deploy, modular, rugged, and certified for off-grid, on-grid, or hybrid solutions.

The solar container is lifted using the corner corners in the roof frame. With these in the base frame, the module can be fixed and secured during transport using the twist-lock system.
