

# Can the airpods charging box store power

<div class="df\_qntext">Do AirPods charge in a case?

Yes,AirPods charge in their case. The case functions not only as a protective covering but also as a charging hub. The AirPods case acts as a compact,portable charger for your earbuds. This ensures that when you store your AirPods,they are simultaneously replenished with power,making them ready for use once taken out.

<div class="df\_qntext">How do I Keep my AirPods charged?

To keep your AirPods charged,put them in the casewhen you're not using them. If you have a MagSafe Charging Case or Wireless Charging Case,you can charge your case wirelessly. You can also charge all cases with a cable.

<div class="df\_qntext">How do I Charge my AirPods if the case is closed?

AirPods shut down and charge whenever they're in the case with the lid closed. To charge,connect the case to a power outletusing the appropriate cable (Lightning to USB or USB-C) and a compatible power adapter.

<div class="df\_qntext">How long does it take AirPods to charge?

A green light signifies a charged case,while amber indicates it needs charging. The duration taken for the AirPods to charge completely inside the case is about 15 minutesfor an approximate 3 hours of listening time. If both the AirPods and the case are depleted of power,the AirPods charge to 100% in roughly an hour inside their case.

<div class="df\_qntext">How to charge AirPods 4 wirelessly?

With the Wireless Charging Case for AirPods 4 (ANC), make sure you centre the case flat on the charger. Connect a Lightning cable or USB-C cable to your charging case, depending on your model of charging case. Then connect the other end to a USB charger or port. Charging is fastest when you use an iPhone or iPad USB charger or connect to your Mac.

<div class="df\_qntext">Why is my AirPods not charging?

If the lid is open,the AirPods will not charge. If the light on the case flicks on,your AirPods are charging with the charge from the case and you can skip the next step. If the light does not turn on,you'll need to set the case on a charging pad. Place the case on a Qi-certified charging mat.
