<div class="df_qntext">How do you make money from straw?

Use of straw: Straw can be used to provide padding for cows and pigs. Only then will the animals produce manure. You can also sell the excess. It's not a lot of money, but when you accumulate a lot of it over time, you can get good cash. Remember that straw is produced in large quantities - you do not have to get it from every crop.

<div class="df_qntext">How do I collect a straw?

To collect it, you must set the straw ejection option in the harvester instead of cutting it and spreading it across the field - (Straw Swatch). Such a straw lying in the field can be collected with a forage wagon or turned into bales. However, when you decide to do some work in the field like cultivation or plowing, the straw will disappear.
