

Capital solar container project under construction

<div class="df_qntext">What is solar capital De Aar 1?

Solar Capital De Aar 1 is a 94.5MW solar PV power project. It is located in Northern Cape, South Africa. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in a single phase. Post completion of construction, the project got commissioned in August 2014.

<div class="df_qntext">What is solar capital Orange PV Park?

Solar Capital Orange PV Park is a ground-mounted solar project which is planned over 193 hectares. The project is expected to generate 200,000MWh electricity and supply enough clean energy to power 50,000 households. The project cost is expected to be around \$130m. The project construction is expected to commence from 2020.

<div class="df_qntext">Who will supply the solar power project?

JA Solar Holdings will be the supplier of the PV modules for the solar power project. The company is expected to supply modules with rated capacity of 310W. Sterling and Wilson Renewable Energy is expected to perform operations and maintenance for the solar PV power project.

<div class="df_qntext">Who is solar capital?

Eskom Holdings Limited SOC. Solar Capital currently has 25 Fully Permitted sites in excess of 2.5GW. Solar Capital exclusively focuses its investments in large solar power plants in the range of 10MW-200MW. International Partners, utilizing only proven technology to develop further afield in the world.

<div class="df_qntext">Who supplied the PV modules for the project?

Moncada Energy Group was selected as the supplier of the PV modules for the project. The company installed 203,948 modules at the site. Moncada Energy Group and Solar Capital were contracted to render operations & maintenance services for the project. For more details on Solar Capital De Aar 1, buy the profile here.

<div class="df_qntext">Who is Energy Capital?

It was established in 2015 with the objective of offering fully funded solar energy solutions to the South African market. During 2017, this was expanded to include all sustainable solutions. At Energy Capital, we are committed to providing all our clients with an exceptional experience - before, during and after a project is completed.

Initially in South Africa, where construction and sovereign risks are minimized, we work closely with our International Partners, utilizing only proven technology to develop further afield in the world.

Solar Capital Orange PV Park is an 86.25MW solar PV power project. It is planned in Northern Cape, South
