

Establishing a Finnish solar container company

<div class="df_qntext">How do I start a company based in Finland?

If you are establishing a new company based in Finland, and not registering an existing foreign company to operate in Finland, see our guidance for establishing a company in Finland. Select the start-up notification for the type of company you are establishing. The forms are available at ytj.fi.

<div class="df_qntext">What are the Finnish start-up instructions?

These instructions are for foreign companies that are non-resident taxpayers and are starting business operations in Finland. In order to conduct business, the company must be registered in Finland by submitting a start-up notification.

<div class="df_qntext">How can a foreigner open a company in Finland?

Foreigner can open a company in Finland by registering it in the Trade Register of the Finnish Patent and Registration office with at least three members of the Board of Directors.

<div class="df_qntext">Is there a charge for registering a company in Finland?

There is a charge for registration. If you don't have a Finnish personal ID, you can still register through a legal representative or by submitting paper forms. Since 2019, Finland has abolished the minimum share capital requirement for private limited companies. Previously, founders needed to contribute EUR 2,500 in capital.

<div class="df_qntext">What documents do I need to start a business in Finland?

Remember to include any required attachments, such as a trade registration certificate from the company's country of tax residence or a copy of your contract agreement or employee leasing agreement. You can use the Tax Administration's online helper tool to estimate whether your operations in Finland will give rise to a permanent establishment.

<div class="df_qntext">How do I register a new business in Finland?

Registration: All new enterprises, including foreign companies starting up business in Finland, must submit a start-up notification to the trade register. The notification can also be used for registration in the employer register, prepayment register and/or VAT register. Details below
