

Folding bed can store electricity

<div class="df_qntext">What does a folding bed do for You?

That is exactly what a folding bed can do for you. A folding bed is a type of bed for anyone who wants to use available space wisely and is looking for a comfortable night's sleep. Folding beds appear when you need them and disappear as if by magic when you are not using them. But not all folding beds are the same.

<div class="df_qntext">What are the best electric rock & roll beds?

Check out our new range of electric, fold out rock'n'roll beds from Just Kampers - some of the best we've ever seen. Each bed is crash tested, having passed the M1 and pull tests with flying colours. Available in four different colours, they're created with a storage compartment underneath, so you don't waste any space in your interior.

<div class="df_qntext">How does the Eazy bed work?

The unit is on a track system, which means that the seats/bed can be moved forwards or backwards if you need space in any part of your camper. The bed has storage underneath it as well, if there's anything you'd like kept out of sight, simply stow it away under the Eazy Bed.

<div class="df_qntext">What types of folding beds are available at Easy Living?

At Easy Living you will find more than twenty different high-quality folding beds in many beautiful styles and sizes. You can choose from single or double, suitable for wider rooms or for small spaces. Easy Living also has a multifunctional solution for those working from home, such as a folding bed with table or desk to save space.

<div class="df_qntext">What is a folding wall bed?

Folding wall beds represent a marriage of practicality and comfort, making them an invaluable addition to modern living. From their historical roots to the contemporary designs available today, these folding wall beds continue to evolve, meeting the challenges posed by shrinking living spaces.

<div class="df_qntext">What makes the Eazy bed so good?

What makes the Eazy Bed so good, is its easy operation; it could literally be used by anyone. At its core, it's a traditional rock and roll bed, but the electrical operation means that you don't need to move; it unfolds itself for you. This does sound fancy, and that's because it is. Simply hit a button and done!
