

Goldwind technology domestic wind power solar container equipment manufacturing

<div class="df_qntext">Who is Goldwind?

Goldwind is a global leader in clean energy, energy conservation, and environmental protection. As a world-top wind turbine manufacturer, we are committed to providing integrated wind power solutions, including wind farm siting, design, and construction; wind turbine equipment manufacturing, installation, and maintenance.

<div class="df_qntext">Is Goldwind a good wind power company?

Goldwind, the world's leading wind power company, has been awarded as "Top 500 Global New Energy Companies", specializing in wind energy solutions, onshore and offshore wind farm construction, wind turbine design and building, and wind farm O&M services.

<div class="df_qntext">Is Goldwind China's most innovative company?

Through the implementation and investment in industry-leading turbine technology, water treatment solutions and other green energy technological ventures, Goldwind has been hailed as one of China's most innovative companies. Goldwind now operates on 6 continents, has more than 8,000 employees, and more than 44GW of installed wind capacity.

<div class="df_qntext">Who is Goldwind service?

By means of steel-concrete tower design, production, lifting and delivery as well as customized project solution and integrated assessment platforms, Goldwind Service provides competitive ultra-high and large base steel-concrete towers, utilizing localized manufacturing and engineering solutions in the world's top wind markets.

<div class="df_qntext">Who makes Goldwind wind turbines?

In 1998 Goldwind started the production of Jacobs 43/600 and Jacobs 48/600 turbines. This German wind turbine with conventional geared drive train is similar to HSW600 and was designed by aerodyn Energiesysteme GmbH. Later the design has been geared to Jacobs 48/750 and Goldwind by the German engineering consultancy aerodyn.

<div class="df_qntext">Where is Goldwind located?

In the summer of 2018 we moved to our new office located in Hinnerup in the northern part of Aarhus from where we can continue to grow and develop our business focusing on supporting Goldwind's R&D department in Beijing with the development of future wind turbines and associated technologies.

Manufacturing industry is the key to development of wind energy. Although there is a relatively complete manufacturing and supply chain for wind turbines in China, including ...

Goldwind technology domestic wind power solar container equipment manufacturing

This is the onshore wind power project with the largest unit capacity in China, with a total of 333 Goldwind GWH191-5.27MW wind turbines. Goldwind provides a full range of wind power solutions, ...

Jiangsu Goldwind Wind Power Equipment Manufacturing Co Ltd, commonly referred to as Goldwind, is a leading player in the renewable energy sector, headquartered in Jiangsu, China. Established in ...

Goldwind collaborates with resource, finance, and service partners to provide quality and integrated clean energy investment solutions for wind and solar farms and solutions for source-grid-load-storage ...

Forward Goldwind is driving the global renewable energy revolution by providing affordable, reliable and sustainable power. As one of the first companies to develop wind power in China, with more than 19 ...

Goldwind is a global leader in clean energy, energy conservation, and environmental protection. As a world-top wind turbine manufacturer, we are committed to providing integrated wind power solutions, ...

Goldwind has more than 20 years of technology and field experience in the operation & management of wind farms and wind turbines, a professional R& D team with more than 150 members, and a service ...

As a global leading wind power company, Goldwind has mature and innovative technologies of wind turbine equipment and system development, providing a full range of onshore & offshore wind power ...

For over two decades, Goldwind has been leveraging cutting-edge technologies to manufacture top-tier wind turbines, delivering best-in-class energy production, intelligent controls, and industry-leading ...

Chinese wind turbine manufacturers led the global market in 2024, with Goldwind, Envision, and MingYang securing the top three positions for the first time, according to Wood ...
