

How to make solar container profitable

<div class="df_qntext">Can you put solar power in a shipping container?

There are many ways to skin a cat, and even more ways to add solar power to a shipping container. To be fair, I cheated a bit. Well, not really cheated, but I just went with a retail solar generator system instead of DIYing that part myself from à la carte components.

<div class="df_qntext">How can I save money on solar panels?

To save a bit of money instead, you can source your own solar panels, solar charge converter, batteries, inverter, and wiring, then make it all play together. For me and my limited time, an offer from Pecron for a solution that would do all of that for me sounded perfect, so I went with Pecron's system.

<div class="df_qntext">Can you make a profit with container Xchange?

With Container xChange, you can buy, sell and lease shipping containers at the best prices today. Now that you know why investing in containers is a good idea, let's take a look at the different ways you can use them to make a profit.
