

Hydrogen solar container bidding

<div class="df_qntext">How many hydrogen tenders are there in the world?

We found 400 global hydrogen Tenders from the public procurement domain worldwide. View latest Global tenders for hydrogen from Africa, Americas, Asia, Australia, Europe, Middle East and other countries Worldwide.

<div class="df_qntext">What is the European hydrogen bank auction?

The European Hydrogen Bank's first auction launched in November 2023 with a ceiling price of EUR4.50/kg of renewable hydrogen produced. It attracted 132 bids for 8.5 GW of electrolyzer capacity, surpassing the available budget. In May, the commission awarded nearly EUR720 million to seven projects across Finland, Norway, Portugal and Spain.

<div class="df_qntext">How much does a hydrogen project cost?

Twelve projects covering hydrogen for vehicle fuel, pipeline injection, methanol and ammonia will receive fixed premium support between EUR0.20 and EUR0.60 per kg produced, and three marine fuel-focused projects receiving EUR0.45 and EUR1.88 per kg produced.

<div class="df_qntext">What is the European Commission's second hydrogen auction?

The European Commission's second hydrogen auction allocates EUR1.2 billion (\$1.3 billion) for projects supporting renewable hydrogen production, with EUR200 million earmarked for projects with off-takers in the maritime sector. Bidding is open until Feb. 20, 2025. The European Commission has launched the second European Hydrogen Bank auction.

<div class="df_qntext">How does the EU fund renewable hydrogen projects?

The European Commission has selected fifteen more renewable hydrogen projects to receive subsidies for production over ten years, following its second auction process. They will receive a total of EUR992 million in EU funding, from the Innovation Fund sourced from the EU Emissions Trading System (ETS).

<div class="df_qntext">What is hydrogen Europe congratulating its members?

Hydrogen Europe congratulates its members on the successful submission of the projects! The selected projects span strategic sectors such as transport, chemicals, methanol, and ammonia production.

Kuwait has opened bidding for a 500 MW solar project under its PPP framework, inviting six major global consortia to develop the Al Dibdibah-Al Shagaya Phase III plant as part of its push to ...

The low clearing price for the EU's inaugural European Hydrogen Bank auction, with funding for 1.5 GW of electrolysis across seven successful projects, shows a willingness to pay a "green premium" by ...
