

<div class="df_qntext">Can You import solar modules from China to Europe?

When importing solar modules from China to Europe, various pitfalls can arise in the logistics process that may disrupt the schedule or cause unexpected costs. Here is an overview of the most common risks: Customs is a central checkpoint -- but it is precisely here that delays can occur.

<div class="df_qntext">Should solar PV supply chain services be included in the IRENA report?

This IRENA report takes stock of the key quality infrastructure (technical) and ESG services that should be considered by solar PV stakeholders to bolster supply chain activities, as well as make them more inclusive. Download Annex data here.

<div class="df_qntext">Why is supply chain development important for solar photovoltaic (PV) capacity growth?

Supply chain development is crucial for solar photovoltaic (PV) capacity growth; however, most of its crucial value chain segments are concentrated in specific geographies such as China, Europe and the United States. Hence, from a sustainability perspective, it is critical that these supply chains become more diversified and resilient.

<div class="df_qntext">How can countries improve their solar PV supply chain resiliency?

One way in which countries can enhance their solar PV supply chain resiliency, and facilitate greater market access, is through participation and conformance to the international quality infrastructure ecosystem for this technology.

<div class="df_qntext">How to transport solar modules?

Especially in Germany and the EU, road transport is often the fastest and most flexible way to reach even remote locations. However, transporting solar modules is not an everyday freight - they are sensitive and must be handled properly to avoid damage. Use transport companies with experience in handling solar modules.

<div class="df_qntext">Should solar PV supply chains become more diversified and resilient?

Hence, from a sustainability perspective, it is critical that these supply chains become more diversified and resilient. Emerging markets and developing economies (such as India and Southeast Asian countries) are beginning to increase their engagement in solar PV supply chain activities.

Under that authority, NHTSA issues and enforces federal motor vehicle safety standards (FMVSS) that establish minimum safety performance requirements for motor vehicles and for 13 items of motor ...

Abstract - Automatic Guided Vehicle (AGV) has been widely applied in automatic logistics system because it provides flexibility and efficiency. This paper addresses review and design of multi AGVs ...

(xvii) the term "high-pressure gas container for transportation automobiles" means a container for transportation of high pressure gas, which is fixed on a tank car (meaning a car provided in Article 35 ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of 20+ ...

It is noteworthy that the implementation of the requirements of the technical regulation for small solar PV systems comes within the framework of the government work system efforts to ...

This guidance focuses on the requirements for importers of CBAM goods into the EU for the transitional period, from 1 October 2023 to 31 December 2025, during which time the CBAM is applied without a ...

When shipping cars via ocean freight, probably the most common way to ship them is via Ro/Ro vessels (Roll-on/Roll-off). But: shipments via container vessels can bear advantages, as well. That is one ...

Both CBP and the importing/exporting community have a shared responsibility to maximize compliance with laws and regulations. In carrying out this task, CBP encourages ...

QUESTION NO: 10 Universal Containers (UC) wants to implement Service Cloud using Agile methodology. How should the consultant recommend delivering a successful implementation? A. ...

This document is intended to provide guidance on information gathering that should be considered when undertaking due diligence and risk assessment in consideration of carrying EV's in containers on ...
