

Interpretation of recent solar container price trend chart

<div class="df_qntext">How has solar energy index changed over the past month?

Over the past month,Solar Energy Index's price has risen 4.51%,and is up 6.90% compared to the same time last year,according to trading on a contract for difference (CFD) that tracks the benchmark market for this commodity. Historically,Solar Energy Index reached an all time high of 307.90 in May of 2008.

<div class="df_qntext">How does pvxchange differentiate between the main technologies available on the market?

In doing so, we differentiate between the main technologies available on the market. Since 2009, pvXchange has provided a unique price index for the european market, which has become an invaluable industry tool. Today, it is hard to imagine the industry without our price index, trend data, and in-depth analysis and commentary.

<div class="df_qntext">How is solar price measured?

The solar price for utility-scale projects is measured using LCOE,which typically has the lowest LCOE among all solar PV sectors. As solar prices continue to decline,utility solar PV plays a key role in the global energy transition,supporting large-scale renewable energy adoption.

<div class="df_qntext">Does commercial solar cost a lot?

The solar price for commercial projects variesbased on system size,location,energy needs,and available incentives. Unlike residential solar,commercial solar pricing benefits from economies of scale,resulting in a lower levelized cost of electricity (LCOE).

<div class="df_qntext">Does pvxchange offer a price index?

Since 2009,pvXchange has provided a unique price index for the european market,which has become an invaluable industry tool. Today,it is hard to imagine the industry without our price index,trend data,and in-depth analysis and commentary. Please find here a collection of all available market comments: Market Analysis

<div class="df_qntext">Where did photovoltaic cost data come from?

Photovoltaic cost data between 1975 and 2003 has been taken from Nemet (2009),between 2004 and 2009 from Farmer &Lafond (2016),and since 2010 from IRENA. Prices from Nemet (2009) and Farmer &Lafond (2016) have been converted to 2024 US\$using the US GDP deflator,to account for the effects of inflation.
