

Luxembourg city power supply side solar container tender

<div class="df_qntext">How will Luxembourg benefit from the European financing mechanism?

In addition to these bilateral or multilateral initiatives, Luxembourg also intends to make full use of the European Financing Mechanism, which allows European countries to join together to develop and finance renewable energy projects, from which the money will be invested in concrete and clearly identifiable projects for Luxembourg taxpayers.

<div class="df_qntext">What are Luxembourg's priorities for achieving the necp objectives?

The following are some of the priorities for achieving the objectives set out in Luxembourg's Integrated National Energy and Climate Plan (NECP): Self-consumption and sharing of renewable electricity. Targeted expansion of heat produced by renewable energy: heat pumps will become standard in new and renovated buildings.

<div class="df_qntext">How does the Benelux/NSEC benefit Luxembourg?

The Benelux/NSEC provides Luxembourg with access to the sea (in a manner of speaking) and to offshore wind energy. The European Commission has estimated that offshore wind in the North Sea could supply up to 12% of the EU's electricity consumption by 2030.
