<div class="df_qntext">Can circular sustainable agriculture be implemented in ASEAN?

Circular sustainable agriculture can and should be implemented in the various countries of ASEAN as part of the sustainable agriculture drive in ASEAN, a major part of this can be in valorizing agricultural and food waste.

<div class="df_qntext">What are the ASEAN Sustainable Agriculture guidelines?

The ASEAN Sustainable Agriculture Guidelines further act to encourage agricultural cooperatives to take further part in sustainable agriculture encouraging many private companies, SME's and agricultural cooperatives to be involved in the production needed to develop the cost-effective sustainable fertilizer and feed inputs needed for the industry.

<div class="df_qntext">What are sustainable and circular Agriculture guidelines?

Guidelines are sometimes produced without the intention of supporting implementation or monitoring but rather to compile existing practices or standards and act as a reference document. However, these guidelines have been designed to lead to strategies and practical implementation plans in sustainable and circular agriculture.

<div class="df_qntext">What is the ASEAN action plan on sustainable agriculture?

The ASEAN Member States (AMS), recognizing the crucial role of agriculture in regional development and its contribution to achieving sustainable economic growth, poverty eradication, food security, mitigating climate change impacts, and environmental sustainability, have put forward the Action Plan on Sustainable Agriculture in ASEAN.

<div class="df_qntext">What are the challenges in implementing sustainable agriculture in the ASEAN?

In implementing sustainable agriculture in the ASEAN, the challenge involves the balancing of many competing needs and concerns that encompass social, environmental, and economic development. These include the following.

<div class="df_qntext">What is cost-effective sustainable agriculture in ASEAN?

Cost effective sustainable fertilizers and feeds are very much a part of the solution for cost-effective sustainable agriculture in ASEAN. The majority of ASEAN countries import an unsustainable amount of chemical mineral fertilizers and raw materials for feeds into ASEAN for use in most aspects of our farming operations.

On February 3, the Chinese Communist Party (CCP) Central Committee and the State Council unveiled the 2024 No. 1 Document that sets policy guidelines for agriculture and rural ...
