

<div class="df_qntext">What is the global solar inverter market like in 2019?

Analysis from Wood Mackenzie shows global inverter demand grew 18% last year. The ten largest inverter suppliers accounted for 76% of the global trade. Huawei, Sungrow and SMA have topped the PV inverter rankings since 2015. The global solar inverter market grew 18% in 2019, according to new data from U.S.-owned analyst Wood Mackenzie.

<div class="df_qntext">How did the PV inverter market perform in 2019?

The PV inverter market achieved record shipments in 2019, writes IHS Markit's Miguel de Jesus, driven by booming shipments in key markets such as the United States, Spain, Latin America, Ukraine and Vietnam. Revenue rose rapidly, surpassing the \$9 billion mark in 2019 for the first time.

<div class="df_qntext">What is the market share of solar PV inverters in 2021?

The utility segment of the solar PV inverters accounted for the largest market share in 2021 and is expected to reach USD 7,716 million by 2030 at a CAGR of 5.95%. Utility-scale solar projects require reliable, robust, and scalable infrastructure. The most widely used PV inverter in the utility sector is the central and string inverter.

<div class="df_qntext">What is the global PV inverter market size?

Based on product, the global market has been categorized into central PV inverters, string PV inverters, micro-PV inverters, and others. String PV inverter accounted for the largest market share in 2021 and is projected to grow at the highest CAGR of 6.05% to reach USD 8,814 million during the forecast period.

<div class="df_qntext">How much money did PV inverters make in 2019?

Revenue rose rapidly, surpassing the \$9 billion mark in 2019 for the first time. The global competitive landscape for inverters remains relatively consolidated. The top 10 suppliers accounted for more than 70% of global PV inverter shipments.

<div class="df_qntext">Which inverter companies dominated the solar market?

Spanish company Power Electronics claimed fourth position thanks to dominance in its domestic market, even if it lost U.S. market share to Sungrow during the year, according to the WoodMac analysts. Italian inverter maker Fimer enjoyed the biggest growth, climbing to fifth after it took over the solar inverter business of Swiss company ABB.

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors ...

The PV inverter market accomplished record shipments in 2019, writes IHS Markit's Miguel de Jesus, driven

Solar container inverter market share 2019

by booming deliveries in crucial markets such as the United States, Spain, ...

How has the global solar PV inverter market performed so far and how will it perform in the coming years?
What are the key regional markets in the global solar PV inverter industry?

The global mobile solar container market is experiencing robust growth, driven by increasing demand for off-grid and temporary power solutions across diverse sectors. The market, ...

Profits increased rapidly, exceeding the \$9 billion mark in 2019 for the very first time. The international affordable landscape for inverters continues to be fairly consolidated. The leading ...

With the improvement in solar power technology, and increasing reliability and affordability quotient, the solar PV inverters market is moving on an upward trajectory. The rise in ...

Solar Container Market Size was estimated at 435.35 (USD Billion) in 2023. The Solar Container Market Industry is expected to grow from 556.24 (USD Billion) in 2024 to 3950.49 (USD Billion) by 2032.

Unlock in-depth insights into the solar inverter market, its trends, types, and future potential with our comprehensive research report featuring forecasts for the next decade, tailored for industry leaders ...
