

The latest solar container solution for Botswana power grid

<div class="df_qntext">How will Scatec power plant work in Botswana?

The power plant is Scatec's first in Botswana and will generate predictable revenues from a 25-year power purchase agreement (PPA) with Botswana Power Corporation, the national utility. The remaining 60 MW of the project is currently under construction and is expected to be completed in the beginning of 2026.

<div class="df_qntext">Does Scatec own the solar power plant?

Scatec owns 100% of the project and is aiming to reduce its long-term economic interest by inviting additional equity partners. "We are very proud to achieve COD for the first phase of the solar power plant within budget, reinforcing our commitment to advancing renewable energy in the region," says Terje Pilskog, CEO Scatec.

<div class="df_qntext">Who is solarbw?

Quality Power Solutions SolarBW are the proud distributors of some of the world's leading solar brands and products. We provide excellent turnkey services for SolarBW there is no place too remote and no site too dangerous.

How will a solar power plant benefit Botswana? The solar power plant will ensure that approximately 48,000 tons of CO2 emissions will be avoided and power approximately 20,000 households annually.

Botswana Solar Energy Storage Battery Project The World Bank has approved funding for Botswana's first grid-side battery energy storage system (BESS), which will have an output of 50MW and a ...
