<div class="df_qntext">What happened on a container ship at San Pedro port?

LOS ANGELES,CA -- An electrical fire broke out on board a container ship docked at San Pedro Port on Friday night, prompting a massive emergency response and a shelter-in-place order for nearby neighborhoods. The fire on the ship One Henry Hudson was first reported shortly before 6:40 p.m., according to the Los Angeles Fire Department.

<div class="df_qntext">Are electric vehicles causing a 'battery energy storage fire'?

With the growing number of electric vehicles and batteries for energy storage on the grid, more high-profile fires have hit the news, like last year's truck fire in LA, the spate of e-bike battery fires in New York City, or one at a French recycling plant last year. "Battery energy storage systems are complex machines," Mulvaney says.

<div class="df_qntext">Was a cargo ship fire 'substantially contained' in Los Angeles?

Nov 22 (Reuters) - A fire on a cargo ship that sent smoke billowing through parts of the second most populous U.S. city has been "substantially contained" after several hours, the Port of Los Angeles said on Saturday. Shelter-in-place orders for two of the city's neighborhoods were lifted. No injuries have been reported.

<div class="df_qntext">What happened at the Yusen container terminal?

Fire crews and ship crew members continued fire suppression efforts on Saturday, officials said, after the vessel was towed away from its berth at the Yusen Container Terminal. Marine units continued cooling the ship's exterior, the Los Angeles Fire Department said.

<div class="df_qntext">What happened on a container ship in Los Angeles?

The ship's cargo includes hazardous materials. By about 7 p.m., the fire had spread to several levels of the ship, according to the fire department, and later an explosion took place mid-deck. First responders battle a blaze on a container ship docked at the Port of Los Angeles, Friday, Nov. 21, 2025. AP
