

Will solar container be sanctioned by the united states

<div class="df_qntext">Will LONGi Solar modules be banned from the US market?

From pv magazine USA Under the enforcement of the Uyghur Forced Labor Prevention Act (UFLPA),US Customs and Border Protection has reportedly excluded Longi solar modules made with Tongwei polysilicon from entering the US market,according to a recent industry note from Roth Capital Partners.

<div class="df_qntext">How does a solar law affect the US solar supply chain?

In the solar industry, the issues are concentrated upstream of the supply chain in polysilicon production, metallurgical silicon production and quartz mining operations. The law has had a significant impact on US solar supply chains.

<div class="df_qntext">How has the uflpa impacted solar supply chains?

The UFLPA has impacted solar supply chains since its introduction in 2022. Image: Rinson Chory,via Unsplash. The US has banned a subsidiary of JA Solar from shipping goods to the countryunder its forced labour legislation.

<div class="df_qntext">Why did the US impose a solar moratorium on China?

The moratorium's emergency intent was to keep import channels flowing to support the U.S. solar deployment,though the U.S. government had preliminarily found that Chinese companies were using the Southeast Asian countries to circumvent existing tariffs. Auxin Solar had brought the Southeast Asian so-called anti-circumvention case.

<div class="df_qntext">How can I consolidate non-SDN sanctions lists?

OFAC provides a way to consolidate non-SDN sanctions listsfor easier compliance with their regulations. You can download a customized dataset by setting parameters to include selected sanctions lists and/or programs of your choice. These consolidated files comply with all of OFAC's existing data standards.

<div class="df_qntext">What does the US Court of international trade decision mean for solar?

The U.S. Court of International Trade decision represents a hard blowto developers and importers who brought in huge amounts of low-priced,largely Chinese-made solar imports from Southeast Asia over the two years between June 6,2022,and June 6,2024.

As a result of the Commission's affirmative determinations, the existing orders on imports of these products from China will remain in place. Chair Amy A. Karpel and Commissioners ...
